Premium robot vacuum price claims: what checks out and what doesn't

The competitor analysis document is broadly directional but contains several material errors, including one likely product mix-up (Ecovacs X8 Pro Omni vs T50 Max Pro Omni at The Good Guys), an incorrect claim about the Dyson's detergent dispenser, and at least one price that appears fabricated or outdated (Roborock Saros 10 at The Good Guys). The Dyson Spot+Scrub AI is confirmed real and available in Australia since 5 February 2026 — and it does meet your self-emptying dock requirement. Below is a retailer-by-retailer breakdown of every claim.

The Dyson Spot+Scrub AI is real and hits most of its marks

The **Dyson Spot+Scrub™ Ai** (SKU 218087-01) launched in Australia on **5 February 2026** at an RRP of **$1,999 AUD**. It is Dyson's first vacuum-and-mop hybrid with a self-emptying, self-cleaning dock. BTTR Reviews Digital Reviews Network The product is available at dyson.com.au, The Good Guys, Harvey Norman, JB Hi-Fi, Costco, and Myer — but **not at Bing Lee** (no listing found).

Pricing verification:

Retailer	Document claim	Verified price	Status
dyson.com.au	—	$1,999	✅ Confirmed
The Good Guys	$1,999	$1,999	✅ Confirmed
Harvey Norman	$1,999	$1,999 (product listed, RRP consistent)	✅ Very likely
Costco	"Available"	Listed (price behind login)	✅ Confirmed listed
JB Hi-Fi	—	Listed (price JS-rendered, likely $1,999)	✅ Listed
Bing Lee	—	**Not stocked**	❌ Not available

Technical specs verification — the document has one critical error:

Spec claim	Verified?	Notes
18,000 Pa suction	✅ Confirmed	Per Dyson Australia FAQ
Bagless cyclonic dock (self-emptying)	✅ Confirmed	10 root cyclones, ~3L bagless bin, empties automatically — **this IS a true auto-empty dock**
HEPA filtration (0.1 micron)	✅ Confirmed	Double filtration in robot + dock, EN 1822-1:2019 tested
Green LED floor illumination	✅ Confirmed	Green-spectrum LED highlights dust and stains
Self-cleaning roller mop	✅ Confirmed	Microfibre wet roller with 12-point hydration; extends 40mm for edge cleaning
60°C heated wash	✅ Confirmed	Dock supplies 60°C water; dries roller with 45°C hot air
"No auto detergent dispenser"	❌ **WRONG**	**The Dyson DOES have an auto detergent dispenser** — a "precision dosing system" that automatically adds 10ml of Dyson cleaning solution per fill. Trusted Reviews confirms: "the detergent dispenser is mixed with clean water automatically."
2.3L clean water tank	⚠️ Unverified	Dyson doesn't publish this figure; TechRadar estimated the onboard tank at ~1.5L. The dock's clean water tank may be 2.3L but no official source confirms this exact number
HD camera + AI obstacle avoidance	✅ Confirmed	dToF LiDAR + dual-line laser + HD camera; recognises ~200 object types
Auto mop washing	✅ Confirmed	
Hot air drying	✅ Confirmed	45°C hot air in dock
Auto water refill	✅ Confirmed	Dock refills robot automatically — but no plumbing hookup; you manually fill the dock's tank

The document's claim of "no auto detergent dispenser" is a **significant factual error**. This feature actually exists and is a genuine differentiator. (Digital Reviews Network) Also worth noting: the robot is **110mm tall**, which is chunkier than competitors like the Roborock Saros 10 or Dreame X50 Ultra, (Trusted Reviews) and **the mop roller cannot fully clear deep-pile carpet**. (Trusted Reviews)

Roborock Saros 10 pricing shows one unverifiable claim

The Saros 10 has a consistent **RRP of $2,999 AUD** across Australian retailers, with varying promotional prices.

Retailer	Document claim	Verified price	Status
The Good Guys	$1,777	RRP $2,999; sale prices of $2,297 seen — **$1,777 not found anywhere**	❌ Cannot confirm; no evidence of this price
Bing Lee	$1,769	**$1,769** ("Hot Price") Binglee	✅ Confirmed
Harvey Norman	$2,999 (RRP)	$2,999 RRP; sale prices of $1,776–$1,788 seen	✅ RRP confirmed
Amazon AU	$1,997	Price hidden ("add to cart")	⚠️ Unverifiable

The **$1,777 at The Good Guys** is the most suspicious claim. No cached page, search result, or third-party source shows this exact price. It's possible this was a brief promotional price that has since changed, but it could not be verified through any available evidence. Harvey Norman's sale prices ($1,776–$1,788) hover near this range, Harvey Norman Harvey Norman so the document may have attributed a Harvey Norman price to The Good Guys by mistake.

Ecovacs X8 Pro Omni: the document likely confused it with the T50 Max Pro Omni

This is the most significant pricing error in the document. The **Ecovacs Deebot X8 Pro Omni launched at an RRP of $2,499 AUD** Binglee GadgetGuy in March 2025 Tech Guide and has since been heavily discounted.

Retailer	Document claim	Verified price	Status
The Good Guys	**$1,799**	**$1,378** ("Top Deal") The Good Guys	❌ Wrong — $1,799 is the RRP of the **T50 Max Pro Omni**, not the X8 Pro Omni
Bing Lee	$1,379	$1,378 (sale from $2,198) Binglee	⚠️ Off by $1
Harvey Norman	$1,396	$1,468 found (white model, 40% off) Harvey Norman	⚠️ Different price; black may differ
Amazon AU	$1,378	Hidden pricing; $1,378 widely cited elsewhere	⚠️ Plausible but unverifiable

The **$1,799 figure at The Good Guys is almost certainly a mix-up with the Ecovacs Deebot T50 Max Pro Omni**, which launched at exactly $1,799 RRP. Multiple press releases and retailer pages confirm the T50 Max Pro Omni at $1,799 and the X8 Pro Omni at $2,499 RRP. GadgetGuy Tech Guide The Good Guys currently lists the X8 Pro Omni at $1,378 as a "Top Deal." The Good Guys

Dock dimensions: The document's claim of **533 × 350 × 477 mm is confirmed** — matching official specs for the station with base (H × W × D). The Gadgeteer

---

Dreame L50 Ultra and X50 Ultra: mostly accurate with one Amazon problem

Dreame L50 Ultra (RRP $1,999):

Retailer	Document claim	Verified price	Status
The Good Guys	$1,649	JS-rendered; Harvey Norman has $1,647 Harvey Norman (nearly identical)	⚠️ Highly plausible
Bing Lee	$1,609	**$1,609** ("Hot Price") Binglee +2	✅ Confirmed
Amazon AU	$1,399	**Australian model not listed on Amazon AU**	❌ Not available — may be confused with US$1,399.99 (USD) or the international "L50 Pro Ultra" variant

The Amazon AU claim of $1,399 is problematic. The Australian-spec L50 Ultra (model RLL94CE, 20,000 Pa) does not appear to be sold on Amazon Australia. Only an international "L50 Pro Ultra" variant (different model, 19,500 Pa) was found, Amazon likely at a USD-equivalent price.

Dreame X50 Ultra (RRP $2,999):

Retailer	Verified price	Notes
dreame.com.au	$2,999 RRP confirmed; Appliance Retailer Channel News $1,999 sale not directly verified	May be intermittent promotion
Bing Lee	**$2,498** Binglee	Marked "CLEARANCE" — suggests stock being cleared for newer models
Harvey Norman	**$1,996**	Save $500 + bonus $100 Harvey Norman gift card Harvey Norman
Amazon AU	**Currently unavailable** Amazon	No stock, no price
JB Hi-Fi	**~$2,999** (likely full RRP)	Per Qantas Marketplace data
The Good Guys	Listed but price not extractable	Likely in the $1,999–$2,499 range

Harvey Norman at **$1,996 plus a $100 gift card** represents the best verified deal on the X50 Ultra right now. The "CLEARANCE" status at Bing Lee suggests this model is being phased out as newer Dreame products (Aqua10, Matrix10) launch.

Narwal Freo Z Ultra: prices confirmed, plus a massive sale you should know about

Retailer	Document claim	Verified price	Status
The Good Guys	$2,499	RRP universally confirmed at $2,499 Binglee	✅ Confirmed
Amazon AU	$2,499	Hidden pricing; RRP is $2,499	⚠️ Plausible
Bing Lee	—	**$2,499**	✅ Confirmed
narwal.com.au	—	**$1,299 (sale)** from $2,499 RRP Narwal	🔥 48% off — likely clearance

The **Narwal official Australian store is currently selling the Freo Z Ultra for $1,299** — nearly half the $2,499 RRP. This is almost certainly clearance pricing as Narwal pushes newer models (Freo Z10 Ultra, Narwal Flow). If you're considering this model, this is an extraordinary price.

5.0L clean water tank: ✅ **Confirmed** across multiple official Narwal sources and independent reviews. The dirty water tank is 4.5L.

Conclusion: what the document gets right and where it misleads

The competitor document is **largely accurate on product existence and RRP-level pricing** but has four notable errors that could affect purchasing decisions:

1. **The Dyson DOES have an auto detergent dispenser** — the document incorrectly claims it doesn't. This is a genuine convenience feature with a precision dosing system. Digital Reviews Network
2. **The Ecovacs X8 Pro Omni at The Good Guys is $1,378, not $1,799** — the document appears to have swapped this price with the T50 Max Pro Omni. The Good Guys This means the X8 Pro Omni is actually **$421 cheaper** than stated. The Good Guys GadgetGuy
3. **The Dreame L50 Ultra is not available on Amazon AU** at $1,399 or any price — the Australian model simply isn't listed there.
4. **The Roborock Saros 10 at $1,777 at The Good Guys** could not be verified through any source.

Prices across Australian electronics retailers are highly dynamic, with frequent promotional cycling. The biggest actionable finding is the **Narwal Freo Z Ultra at $1,299 on narwal.com.au** Narwal — if that model suits your needs, it's currently the best value-per-dollar in the premium segment by a wide margin. For the Dyson, at $1,999 with confirmed self-emptying, self-cleaning, auto-detergent, and heated washing, it meets all stated must-have requirements, BTTR Reviews though its 110mm height Trusted Reviews and roller-based mop (rather than spinning pads) are worth considering against slimmer, pad-based competitors.
